"CAN DO" spirit

To be an integrated oil and gas company and a partner of choice

Edition of August 2015

GROUND BREAKING OF SUAI FUEL STATION & GASOIL STORAGE IN SUAI

Ground Breaking of Suai Fuel Station & Gasoil Storage in Suai

The National Oil Company (TIMOR GAP) through Refinery and Petroleum Service Unit (RPSU) conducted the Ground Breaking for the Suai Fuel Station & Gasoil Storage in Suai with Cultural Ceremony by the traditional local authorities (Lian Nain). The project located at Camanasa, Suai, Covalima District (Southern Coast of Timor-Leste) is scheduled for 5 months, started from August to December 2015.

TIMOR GAP's President & CEO dropping the first stone

Cultural ceremony during the first stone

The location and project design of the Fuel Station and Gasoil Storage project were approved by Autoridade Nacional do Petroleo (ANP) Downstream in accordance with Regulation No. 1/2013 on Construction and Operation of Fuel Filling Station to start construction.

The Ground Breaking ceremony on July 31st counted with the participation of around 100 participants, including the President of TIMORGAP, Mr. Francisco Monteiro and its Directors, the Director of Downstream of National Authority of Petroleum (ANP) Mr. Nelson de Jesus, the Administrator of Posto Administration, members of PNTL (National Police), other local leaders and the Contractor.

One of the requirement to this project is the Local Content Development where the Contractor (Winner of the bidding) is required to procure services, equipment and consumables locally from Suai / Timor-Leste. Therefore it was established a joint venture between a local Contractor, Glory Enterprise Lda and the International Contractor PT. Saka Semesta from Indonesia that was the winner of the bid.

TIMOR GAP'S B&D UNIT AND THE MALAYSIAN EMBASSY IN TIMOR-LESTE ORGANIZE AN OIL BUSINESS MEETING

Mr. Luis Martins
TIMOR GAP's
B&D Unit Director

H. E. Ambassador of Malaysian in Timor-Leste, Mr. Tajul Aman Mohammad , H.E. Minister of Petroleum and Mineral Resources of TL, The Head of Malaysian Delegation Mr. Abu Koyakutty and the President of the Chamber of Commerce (CCITL) of TL, Mr. Oscar Lima

H. E. Minister of
Petroleum Mr.
Pires.

HE Ambassador
of Malaysian in
TL, Mr. Mohammad

Mr. Oscar Lima -
President of
CCITL.

Head of
Delegation, Mr.
Abu Koyakutty

The Malaysian Embassy in Timor-Leste in collaboration with the National Oil & Gas Company of Timor-Leste, TIMOR GAP, E.P. organized a three days business programme between a Malaysian business delegation and Timorese companies regarding the business opportunity in the oil and gas sector of Timor-Leste.

A total of 8 Malaysian companies involved in oil & gas products and services got the opportunity to present their companies and participate in a roundtable discussion with TIMOR GAP, Timor-Leste Government Agencies, including ANP (National Petroleum Authority) and AEI (Specialized Investment Agency) in order to analyze potential business and investment opportunities on the oil & gas sector and others potential sectors like tourism industry.

Coordinated by the Trade Office of Malaysia in Jakarta (MATRADE), the Malaysian companies visit aimed to examine in detail the aspects and opportunities of the Tasi Mane project in the south of Timor-Leste especially now that the Suai Supply Base project is under construction since the South Korea's Hyundai Engineering Construction was awarded with the project of US\$719.21 million, which is part of Tasi Mane mega project on the southern coast of Timor-Leste.

Meetings have been coordinated with Timorese entities from the different areas that involved the private sector and governmental agencies. One component of the project that currently offers more opportunities is the construction of the Suai Supply Base, which is essential for oil exploration activities in the Timor Sea.

"We know the potential of opportunities in this country and I encourage the dialogue to help in terms that you will help us to maximize the value of our resources"- (Minister of Petroleum and Mineral Resources, H.E. Alfredo Pires mentioned it during his speech)

TIMOR GAP - B&D Unit's Director Mr. Luis Martins with the Head of the Malaysian Delegation, Mr. Abu Bakar Koyakutty

The Timorese business men and women got the opportunity to discuss business opportunity with the Malaysian Companies

BETANO REFINERY PROJECT
 Inua East, Betano, Timor-Leste, District of Manatutu, Timor-Leste
 Project Area: 547,000 m²
 Initial Thiss. Facility Building Area: 136,92 acres.

PROJECT DESCRIPTION

The Timor Sea is a rich area of oil and gas. In order to increase production, complex development of existing infrastructure, also to take advantage of potential of the Timor Sea, we are planning to build a refinery in the Timor Sea. The refinery will build in a country with a variety of 5000 barrels per day.

MASTER PLAN

THE 43RD JOINT COMMISSION & SUNRISE COMMISSION MEETINGS

The 43rd Joint Commission & Sunrise Commission meeting were held in Cairns (Australia) on 12th, 13th and 14th of August 2015 and TIMOR GAP participated as part of Timor-Leste Commission.

The importance of Greater Sunrise for Timor-Leste is of significance as this gas field founded in the early 1970's will be piped to its onshore and an LNG export plant is to be built in Beaco, as one of the Tasi Mane projects. However Woodside on the other hand prefers to have it processed offshore by using a novel technology called Floating LNG (FLNG).

These existence of petroleum deposits which extend across the eastern boundary of the Joint Petroleum Development Area (JPDA) being known as Sunrise and Troubadour deposits, are collectively known as Greater Sunrise.

Timor-Leste decision was supported by engineering studies that the gas from Greater Sunrise will be piped to its onshore and an LNG export plant is to be built in Beaco. Therefore the Timor-Leste Delegation formed by several members, including the President & CEO of TIMOR GAP, Mr. Francisco Monteiro and his team, met with the Australian Delegation in order to keep up with the progress regarding the Joint Commission and Greater Sunrise Commission.

TIMOR GAP HAS BECOME A MEMBER OF OGSC

Oil Gas Safety Council

"The Oil & Gas Safety Council was formed with the aims to create a safer workplace through professional and personal development, recognition, and continuous improvement in the oil & gas, construction and marine industries." (OGSC) www.ogsc.org

TIMOR GAP become an OGSC's Member this August 2015 and we would like to congratulate the QHSE Unit for the accurate and excellent work which enabled TIMOR GAP to achieve the tittle of Oil & Gas Safety Council Member.

TIMOR GAP, E.P. still expanding the reputation internationally thanks to the commitment of its dedicated and trustworthy team.

- PT. Phitagoras Global Duta
- PT. Sucofindo
- Team Consulting

TIMOR GAP CELEBRATES THE 40 YEARS OF FALINTIL

The National Oil & Gas Company of Timor-Leste, TIMOR GAP, E.P. commemorated the 40th Anniversary of the FALINTIL, participating in a 3 days (18th, 19th and 20th of August) Exposition at Dili Convention Center

FALINTIL, the Timor-Leste's resistance army that during 24 years fought against the occupation by Indonesia, one of the significant factor that made it possible for the referendum on independence in 1999.

The dream came true and this was achieved through many sacrifices of the combatants of national liberation and the martyrs to make this dream come true.

"Tasi Tolu" was the area in Dili chosen for the official ceremonies during 20th of August 2015, where the President of the Republic of Timor-Leste, H.E. Taur Matan Ruak participated in several ceremonies of decoration and promotion of several national veterans and military.

The Former Commander in Chief of FALINTIL, H.E. Kay Ray Xanana Gusmao was awarded with the highest medal of Timor-Leste, *Ordem da Guerrilha*.

VIVA TIMOR-LESTE

TIMOR GAP, E.P.

SOUTHERN COAST PROJECTS

Today, The Company is focused on the Southern Coast (Tasi Mane) Project as the main activity in the formation of a Company Portfolio in the future. The project will focus on the development of the coastal zone from Suai to Beaco that requires infrastructure to support a growing domestic petroleum industry. Following on from this development, the company will diversify into other areas of operations, such as E&P sector and downstream activities.
