I RTE – THE 1ST TECHNICAL MEETING OF ENERGY OF CPLP

Edition of October 2016

The CPLP - Community of Portuguese-Speaking countries, brings together nine member states in four continents with an estimated population of 240 million people.

- Angola
- Brasil
- Cabo Verde
- Guiné-Bissau
- Guiné Equatorial
- Moçambique
- Portugal
- São Tomé e Príncipe
- Timor-Leste

TIMOR GAP, E.P. President & CEO, Mr. Francisco Monteiro led the I RTE of Energy on October 5th- 7th in Malabo, Guinea Equatorial with an official open ceremony with the presence of the Minister of Petroleum & Mineral Resources of Timor-Leste, Mr. Alfredo Pires, his Homolog Mr. Eugenio Edu Ndong and the CPLP General Director Ms. Georgina Mello.

The first Technical Meeting (I RTE) it was an important step for the CPLP due to the huge power of the CPLP countries in the Energy, where was defining the new steps to guarantee the CPLP :

- I. Sharing technical experiences and knowledge about the energy sector
 - Joint Study on the energy potential of CPLP countries
- II. Stabilization of the development lines of the Strategic Plan for Energy Cooperation of the CPLP
- III. Identification of coordination mechanisms for the creation of the CPLP Energy Network
- IV. Identification of opportunities for the implementation of the Sustainable Energy for All initiative within the CPLP

On November 2016, Brazil replaced Timor-Leste in the rotating biennial Presidency (2017-2018) of the CPLP.

H.E. Minister of Petroleum & Mineral Resources of Timor-Leste, Mr. Alfredo Pires, his Homolog Mr. Eugenio Edu Ndong and the CPLP General Director Ms. Georgina Mello during the open ceremony of the I RTE in Malabo - Guinea

TIMOR GAP's President & CEO, Mr. Francisco Monteiro the Leader of the I RTE together with Mr. Manuel Lapao, Director of Cooperation for CPLP.

I RTE - FIELD VISIT TO A POWER PLANT IN MALABO

During the I RTE, was held on 7 October a field visit to the Turbogás gas-fired power plant operated by SEGESA (stands for Sociedad de Electricidad de Guinea Equatorial), is the national electricity company founded in 2001, located in Punta Europa, Malabo. On this occasion, the participants had the opportunity to visit the infrastructures that ensure the supply of the electricity distribution network in the city of Malabo and for Bioko Island.

CONCLUSION

The First Technical Meeting of Energy (I RTE) was guided by deliberations, debates and well-succeeded and productive measures for what is the primary objective of the CPLP, to strengthen the ties of solidarity and cooperation that unite the Member States. It demonstrates, once again, the growing importance of the energy sector and the wealth and expression that this resource has in the Portuguese-speaking countries. We recall that CPLP member countries hold significant reserves of fossil and / or renewable resources, already in production and / or with potential for research, with CPLP producing four million barrels of oil per day in 2013.

SOUTHERN COAST PROJECTS

Today, The Company is focused on the Southern Coast (Tasi Mane) Project as the main activity in the formation of a Company Portfolio in the future. The project will focus on the development of the coastal zone from Suai to Beaço that requires infrastructure to support a growing domestic petroleum industry. Following on from this development, the company will diversify into other areas of operations, such as E&P sector and downstream activities.
